

Donofrio's Candy

There is not a girl in the Phoenix High School that does not know of the goodness of our candies. Many a time a box was brought to her and she opened it and exclaimed: "It's Donofrio's" and it proved just as good as it looked, and maintained our reputation for "sweetness" and "quality" of which we are proud.

DONOFRIO'S Cactus Candy

Is a candy with distinction and made from the Desert Cactus to which we add only the purest of ingredients, making it a delicious confection, but to get the genuine and original, be sure that it is "Donofrio's."

Our Fountain Service

Makes the coming here a positive pleasure. Come here for a refreshing drink or for Donofrio's delicious Ice Cream.

When "Del" is turned loose on the track a state record is bound to fall. Del is the boy with the speed and the dust will be flying when he comes in on the home stretch.

Captain Cummins is one of the men of the hour. When he gives the high sign all the fellows will follow.

Captain Geary will see that the track boys get to bed early enough. He will also see that Osborne goes to bed with them, as the cool nights will not agree with him.

When the special pulls out, the bright sunshine will then begin to glimmer. All the kids will be telling how many times they have been on a train.

If Pinesy is along he will tell you how many times he has been over to Frisco.

He is young and will learn.

The local merchants are the ones who made it possible to publish this edition to boost university week. They all complain about the school buying candy, tennis rackets, and various sporting goods out of town. They are right about it too. Some people should get next to themselves and patronize home industry. If the school wants a school paper, and an annual they better stick to the local merchants.

The Coyote Special will cause many a moment of anxiety until it pulls out of the Phoenix depot. Every pupil in

the school is talking about the good time they will have on the trip. Judging from the tall a record breaking crowd will leave for Tucson.

There will be no request for state track records. The Coyote runners will put up several remarkable new records. Coach Geary knows the running time of each man and he will not give out any opinion as to whether records will be broken or not.

Jack - a - we confronted a prison cell yesterday afternoon. An officer of the law came up to the office looking for him. The officer was received most heartily and was asked if he needed any help in the arrest. But Jack is so serious as all as that, Jack was merely asked to appear in a line case. He is at large again.

Post the Normal.

The fighting spirit of the Coyotes has won them many a battle.

Harlow Akers, the silver-tongued orator could easily atop the war if he would only give the beligerence one of his heart to heart speeches.

Talking about the Tempe Normal. It's a shame they are not entered in the track events. Get a good chance to see some of their pretty girls.

Professor Jones is one of the biggest boosters in school. He is always seen at the baseball games and every other activity supported by the school.

MAUDE STEWART TO ACCOMPANY P. H. S. SPECIAL

Miss Maude Stewart who was second in the Coyote subscription contest will be taken to the university by the school. Although she was not crowned queen, she labored hard to make the school paper contest a great success.

Miss Stewart has always been a great booster for the school. She is the official P. H. S. piano player. She also played in all the Glee club numbers and plays.

The declaration of war has not interfered with the special. It will leave without fail, Tuesday afternoon, that is if all the Coyotes are not drafted for the army.

Cups Won Last Year By P. H. S.

The Coyotes will have to bring home all the cups offered by the University. Last year Phoenix made a fair showing in bringing home some of the trophies. Here is a picture of a few of the spoils taken after the state battle last year.

HARLOW AKERS TO ORATE FOR HONOR OF LOCAL SCHOOL

Harlow Akers will represent the crimson and the black in the oratorical contest to be held in Tucson.

Akers is the native son whose eloquent tongue and command of speech has made him the most popular youth in school.

His first appearance on the plat-

Harlow Akers

form won him second place in the Sons of the American Revolution oratorical contest which was held some time ago. He is easy to listen, too. He has a good personality and carries his audience away with him.

The school feels most confident that he will win honors for them. For the past three years Phoenix has won this event. His oration is entitled "America a League to Promote Peace."

GLEE CLUBS TO BE TAKEN ALONG ON TUCSON TRIP

The boys and girls Glee clubs are among the lucky ones who will be sent to Tucson at the school's expense.

The Glee clubs held class a half an hour earlier in the morning daily. In the assembly they have entertained the pupils and now they are approaching deserving of some recognition for their services. They will be entered as contestants in the musical numbers.

Those who will go are:

Ida Mae Golze, Mary Gurley, Kath-

Coach Geary will again shine as the man who made the third championship track team for the clan. Some how or another it just comes natural with him to be winner.

When that chu-chu leaves for old Pueblo.

The Thespians bunch congregates around the Santa Rita hotel. Last time the bunch was down there the manager turned the whole hotel over to the boys. Still claim he was a good sport.

The Glee club will be down to sing the morning after the night before.

Every student caught going to bed at 7 o'clock will be sent home immediately.

It has also been agreed that the boys coming in at carry down be forbidden to awaken the peaceful sleepers.

All pupils are forwarded not to count the stories on the sky scrapers in Tucson. It will make people believe they are from the country.

Steer's worries will be small on this trip as there will be no other or herds to crawl out of.

With the hand and orchestra along there is bound to be enough noise.

We love our school days; but oh, you Coyote Special.

Did You Ever Say—

I wish I could dress like that fellow. You can. It is not so much the expensive clothes you wear, but it is the condition they are kept in.

Good clothes bag at the knees, wrinkle at the shoulders and get out of shape as well as cheap clothing.

Why not have your clothing cleaned and pressed by a firm that knows how?
